MASONIC SIGN SAVED SOLDIER

Rev. Livingston Brings In Clipping Describing Scene He Witnessed.

Rev. J. G. Livingston gave the I. J. a clipping from the Masonic Home Journal, of recent issue, in which a veteran of the Civil War, and a member of the Masonic fraternity tells how a Masonic sign brought protection to a Confederate soldier about to be taken prisoner. The incident which the writer mentions, happened at Rev. Livingston's old home in the eastern part of this county, and he states that he remembers it well, having witnessed the incident himself when a youth. The Masonic sign mentioned in the letter was his sister. The incident which is of unusual interest, is described by the writer as follows:

I notice in the Home Journal of December 1, 1914, under the heading, "Mystic Sign," that "That Saved Him," a story describing how a Belgian saved himself and a number of his countrymen from execution by showing a Masonic sign to the German officer in charge of the firing party, which recalls to my mind an incident which occurred during our Civil war, and in which incident the writer was participant. At the time of the incident I was first sergeant of Company A in the Seventh Regiment, Kentucky Infantry Volunteers (Federal), but was on detached service during the latter part of August and the month of September, 1862—was bearer of dispatches first between Cumberland Gap and Lexington, Ky., and then between Cumberland Gap and Louisville. At the latter place I rejoined a detachment of my regiment about the first of October, 1862, soon after which we received marching orders and started for Perryville, Ky., and where we met, engaged, and after a fearful engagement defeated Gen. Braxton Bragg's Confederate forces on the 8th of October, 1862.

The next day, following in his wake, as he leisurely retired from Kentucky, late in the afternoon the captain of my company and I asked the Colonel commanding the privilege of leaving our command for a few hours in order to visit and take supper with an old friend and his wife, who were formerly from our county (Owsley). Our Colonel informed us we could have his consent, but were likely to be picked up by some of the Confederate cavalry, as doubtless some of them were prowling along our flanks for the purpose of picking up stragglers from our ranks. Our friends lived about one and a half miles from where we left the command, and about one mile from the nearest point to the rebels' "calvary" graves over here at Miss Livingston's. The conversation at once became very interesting then. Rapid-fire questions were put one after another until the "calvary men" were probably located—their horses in the barn, their carbines and war equipment in there also, and the men probably at supper with their old friend, Mr. Boone, rode up on his way to Mrs. Livingston's, just over the hill. Some of the same quick-firing questions were put to him, and we found the location of the barn, house, etc., as given by the darkey to be correct; and then the time for action was "right now," to either make an orderly retreat or to charge down and capture the two unarmed Confederate "calvary men." Of course we could afford to be brave, knowing that we would be between them and the barn where their arms were stored. But to the point.

We dashed down in front of the house at near full speed of our horses, sprang from our saddles without checking up, letting them go at will, and, as agreed, I entered by the front door, while my (then) captain was to go around to the rear and cut off retreat of the men. As I ran up the front door of the house a young lady (I supposed it was Miss Livingston) sprang into the doorway, threw up her hands on either side, as though to prevent my entrance, and as I ducked and crowded through beside her, I saw two men making very quick time in their exit through the rear door. Without waiting to apologize for my abruptness, I was quickly outside also in the rear. As soon as I was outside the house I commanded the men to halt. I had a repeating Henry rifle in my hand, and at the first command one of the men stood, but did not turn entirely around, facing me; the other turned his head, looking back, then started on again. I then ordered him the second time to halt, and brought the gun to my shoulder, when the one who first stood gave me the sign which every Master Mason understands, and he was at once under my protection. He gave his name as James S. or J. J. Stratton, and I forget not, said he had been sheriff or a deputy sheriff in Louisville. The other Confederate's name was Felix Moses, a Frenchman, and he was from Boone county, Ky. He could speak but little and very poor English.

I write this extended article, hoping that if Bro. Stratton is still living, I may, through your valued Journal, be enabled to hear from him, and, if possible, to meet with him, or at least to communicate my best wishes to him. If he has passed to the great beyond, I would be very glad to hear from any of his relatives. The above was the first and only time that I ever seen the sign given outside of a Masonic lodge room. Fraternally,—THOS. J. DANIEL, Late Lieutenant Colonel, Seventh Kentucky Volunteer Infantry. Member of Bullitt Lodge No. 155, F. & A. M., Shepherdsville, Ky. Address Bardonia, Kentucky, Ky.

R. L. Slade, Popular Drummer, Says He is Promised \$2,500 Place.

Robert L. Slade, of Lexington, one of the best known "drummers" in Kentucky, who was in Stanford Wednesday morning is one of the hardest workers in the state for the nomination and election of Auditor Henry M. Bosworth for governor. Mr. Slade says that Bosworth has promised him an appointment as a member of the State Board of Control for Charitable Institutions in the event he wins for governor and not only made the offer of this nice appointment to Slade personally but also to two of his traveling friends who went to Bosworth. This place pays \$2,500 a year, and the Board of Control consists of four members, two democrats and two republicans. Mr. Slade has long been an active, working democrat. He says that he has "lined up" about 100 "drummers" already who are boosting Bosworth all over the state as they go about their travels. They will do his candidate an immense amount of good before the primary is held.

LATEST WAR NEWS

British forces in France advanced three-quarters of a mile Wednesday capturing all the intervening positions of the enemy, according to an official announcement given out in London today. The text of the announcement follows: "The Fourth and the Indian Corps advanced yesterday on a front of 4,000 yards for roughly three-quarters of a mile, and captured all the intervening hostile positions and trenches. The corps on the right and left of these two corps also were engaged. More than 700 prisoners were taken. British aircraft were active and succeeded in destroying the railroad junctions at Courtari and Menin."

American owned and flying the United States flag, having on board a cargo of wheat consigned by the commander as contraband. Washington also was profoundly stirred by the news of the blowing up of the steamer, and every effort is promised by the State Department to get at the bottom of the matter, which is considered an unfriendly act, and diplomatic negotiations with Germany will in all probability soon follow, it is said.

The French War Office announced that the Fourth Italian Regiment of the Foreign Legion, to which Garibaldians belong, had been given its liberty by the French government. They were violently bombarded by forty-two Belgian towns of Neuport had two-centimeter guns. German losses were very heavy near La Bassee, where the French captured 1,000 prisoners.

Aroliently parrying and advancing, the gun was snatched and a persuader thrust into face of the disarmed, which won the game and politest compliance with every kind suggestion. Loving remembrances by mail comprised the bunch and the old mother is again reassured. A venerable and venerated mascot, the reverse side of whose evening shadows is brightened with genial sunshine.

SAMUEL NEWELL PASSES AWAY

Probably Oldest Man in County Dies, Aged 97 Years.

Samuel Newell, probably the oldest man in Lincoln county, died at the home of his son, near Millledgeville Thursday morning at the advanced age of 97 years. Mr. Newell moved to this county from Pulaski about a dozen years ago and had made his home with his children in the west end of the county, since then. His wife died about 15 years ago. She was a Miss Cowan before their marriage, an aunt of Mrs. J. N. Menefee, of Stanford. Mr. Newell was a splendid old gentleman, and a model citizen in every way. He was for many years of his life a faithful member of the church, and was willing and ready to go after far exceeding the allotted span of life of man upon this earth.

Mr. Newell is survived by four sons and four daughters, three of the former, being prominent farmers of the Millersville section. They are Messrs. Eph, Joe and Will Newell and Robert Newell, of Colorado; his daughters are Mrs. Brown, of Cincinnati, and Misses Eliza, Maggie and Lela Newell, of this county. The remains of this good man and worthy citizen will be taken back to his old home in Pulaski county Saturday for interment in the old family burying ground.

Mrs. S. J. Thompson Passes Away.

Mrs. Rebecca Thompson, wife of S. J. Thompson, a well known carpenter, of Darstown, died at their home in Pulaski county after a lingering illness of tuberculosis. Funeral services were conducted at Buffalo Springs Cemetery Thursday by Revs. Greer and Bruce. Mrs. Thompson was a splendid Christian woman, a member of the Methodist church and left word for all her friends to meet her in Heaven. She is survived by her husband and four children.

Why Farmers Are Leaving Substantia

A large number of good, substantial farmers have moved into Lincoln and the northern part of Pulaski counties recently, buying farms and settling down. A great many of them have come from Pike, Lawrence and other counties in eastern Kentucky, and the inquiry has naturally been made as to why there has been such an emigration by these good people from that part of the state.

A dispatch from Whitesburg a day or so ago shed this light on the subject: The dispatch stated that a notable exodus of farmers from Letcher, Pike and Perry counties is in progress. The like of it has never before been known, and the cause is somewhat unusual, being due almost entirely to the industrial development of this section, strange as it may seem. All of the counties named are rich in coal and timber and within the last few years there has been an immense development in both lines.

Many of the farmers, hemmed in by coal operations, saw mills and timbered hillsides and tempted by alluring prices for their lands, have sold out. Most of those who are leaving, have bought farms in the more level county of Pulaski, but some have gone to the Blue Grass. Another impelling motive was a feeling of strangeness which the native inhabitants are beginning to feel in a marked measure due to the influx of thousands of strangers, many of them foreigners, to work in the mines and mills of this section. The situation is a most unusual one and the prediction is made that within a few years, the native agricultural population of Letcher, Pike and Perry counties will be a thing of the past, and such agriculture as is followed in these counties so rich in mineral wealth, will be by people from other sections.

Some Kentucky Coal Figures

Kentucky's coal industry is greater than ever before, and is constantly growing. In recent years it has been greatly accelerated, especially in the Eastern coal fields. There several railroads have been run into the rich fields and large quantities of the "black diamonds" are being sent to the coast and other great markets. Not many know that some of the earliest coal mined in Kentucky came from the earth in the sections of Bon Harbor hills mines and those in Hancock county and in Union county were opened very early. The first recorded output in Kentucky coal was in 1827 and that antedated the first output of Ohio just ten years. It was not long after this until the first mine at Havesville was being operated by Captain John Lander with negro slaves, and the coal was hauled to barges on the river in ox carts, and much the same industry was commenced by Captain Triplett with a tramway from Bon Harbor hills to the river. The industry began to grow rapidly as the steamboats men began to learn the superiority of coal over wood for the purpose of producing steam. As late, however, as 1840 the industry had reached an output of only 25,587 tons. On until the war there was gradual growth, and then there was a serious drawback on account of the belligerency of the states, though the government gunboats took large quantities of the coal for their use. When the war opened in 1861 the output had reached 285,760 tons, but during the years of the war it fell off to 2,000 tons and in 1870, five years after the close of the war, it was only 150,582 tons. Since then the growth of coal mining has been continuous until at present the output is something over 20,000,000 tons.—Owensboro Messenger.

New Real Estate Firm in South End.

J. S. Lee and D. M. Robinson, well known citizens of the southern section of Lincoln, have organized a real estate company for the handling of central Kentucky farms, and have just ordered a neat circular printed by the I. J., giving some of their choice bargains in land. They sold for Gottleb Benke, his farm of 83 1-4 acres, five miles north of Waynesburg, to J. C. Christman, of Jessamine county for \$3,300. Mr. Benke then bought a farm near Ottenheim. Mr. Robinson bought the Elihu Miracle farm, this side of Waynesburg, containing 115 acres, for \$1,500. Previous to that he sold his own farm of 60 acres to B. H. Smith, of Jessamine county for \$1,650. Both of the members of the new real estate firm are hustlers and plan to do a big business. They say that they have already booked about 300 farms, of various sizes in Lincoln and Casey counties, which they will offer to buyers.

Remarkable Statements.

Probably the most remarkable statements ever issued by the Lincoln County National and the First National Bank, of this city, appear in these columns today. They are remarkable in that there are no overdrafts, something that has never before occurred in their long and honorable careers, covering a period well on to fifty years. The officers and directors of these institutions are proud of their accomplishment and they tell us that while it has taken a good deal of work in doing away with overdrawing by their customers, they have kept them all in a good humor and most of them agree with the bankers that it is a splendid habit to eschew. The combined overdraft of these two institutions has frequently reached \$25,000, which is quite a sum to furnish customers without compensation, and in most cases without thanks.

\$20 for Disturbing Public Worship.

Bert Miller, colored, was fined \$20 and cost, for disturbing religious worship at a meeting being held at "Chicken Grittle," a colored settlement of Hanging Fork, between Turnersville and Hustonville. A bunch of witnesses appeared against Miller. Bowen Vanarsdale, the well-known hardware drummer, was here this week calling on the trade and shaking hands with his friends "back home."

W. L. MURPHY DIES SUDDENLY

Well Known Lincoln County Man Succumbs to Paralytic Stroke.

Mr. William L. Murphy died at his home near Shelby City just before sunset Thursday after a brief illness. He went to Danville Wednesday morning and was in his usual good health until he reached his home on his return. It was then that he grew cold and when the home was reached he was suffering intensely with his head. A short while afterward he suffered a stroke of paralysis, which resulted as stated. Deceased was 67 years old and is survived by his aged mother, Mrs. Eliza Jane Murphy, who makes her home with her daughter, Mrs. W. A. Moberly, in the East End of the city, his wife, who was Miss Chloe Dudderar, daughter of the late Col. W. Huff Dudderar, and the following children: Zan Murphy, who has been in Panama for years, and James, Ollie, Eph and Will Murphy, and Mrs. C. P. Stucky of Louisville, and Miss Emily Murphy. He was a member of the Christian church and a clever, popular man. About the first of the year he moved his family from this city to a farm he bought near Shelby City, and he had become greatly interested in his work when the sudden summons came. Mr. Murphy attended court here Monday and spent that night with his mother and sister. His death causes both surprise and regret in his home, where he was liked by all. The body will be brought to the Moberly home Sunday morning and at 1:30 o'clock Sunday afternoon, Dr. D. M. Walker will preach the funeral sermon. The burial will follow in the Goshen Cemetery.

John D. Wakefield.
The Interior Journal, whose editors knew him well would endorse most sincerely the following beautiful and well deserved tribute to the late John D. Wakefield, which appeared in the Louisville Times this week.

The flag over the City Hall floats at half-mast today, voicing the widespread sorrow occasioned by the untimely death of John D. Wakefield, chairman of the Board of Public Works. It is meet that this concrete token of grief should be displayed in memory of a public man, but those who knew him best know that symbols cannot express the profound bereavement that is the portion of his many devoted friends.

Mr. Wakefield had achieved more than ordinarily falls to the lot of the young man. He had filled high public offices and at the time of his death occupied a prominent position in the business world. Coming to Louisville an obscure youth, he rose through industry and perseverance from a newspaper reporter to civic honors of which many a man might be proud. He was connected with the editorial departments of the Louisville Times and Courier-Journal for a number of years, and those who were associated with him recall his high ideals and the zeal with which he worked to attain them. Nothing in his life was too small for infinite pains and nothing too great to be undertaken, with the feeling that conscientious effort would presently lead to the end. Loyalty to his friends and a consecration to duty were two principles which he adopted for his guide in life, and he never swerved from either of them.

It is not in public life that Mr. Wakefield will be missed most poignantly. The deepest grief is that which is felt by the hundreds who knew him intimately enough to appreciate his rare endowments of mind and his nobility of character. We know his achievements in public life have been—and he has been honored in many ways—his real crown is the heartfelt love which his graciousness inspired in him. In his passing the city loses a valued official, but this loss is insignificant in comparison with the deep bereavement sustained by his host of friends.

Editor Ed Shinnick wants to know what good reason there can be for not calling a platform convention before the primary, and points out the Wat Hardin case as a precedent. We will show him a later one. In 1911 Gov. McCreary was nominated for governor, and a platform convention was held AFTER the primary and the democratic ticket won by 31,000 majority. What's the use of stirring up any more ill feeling and antagonism between the different candidates and their friends than is possible, as would certainly be the case if a platform convention is held before the nominations are made. These fellows who are ranting for the platform before primary plan are not doing it for any love of the democratic party. There's a nigger in the woodpile, as every one familiar with state politics knows.

Superintendent of Public Instruction Barkdale Hamlett has been made the butt end of a \$10,000 damage suit. J. McWilliams, of Washington county, wants his wounded feelings healed to that extent because Mr. Hamlett accused him of being in league with J. W. Baxter and E. B. Baxter in procuring and selling examination questions used by teachers in the public schools of Anderson county. If Mr. Hamlett had succeeded in getting his salary raised, as he tried to do when he was first inducted into office, he might satisfy the aforesaid McWilliams with a roll and not miss the money.

There were 240 cases of violent deaths in New York City during February, 68 of which were suicides. What's the difference? Most any kind of death beats living in a city where as many as 5,000 people stay in one house, many of whom never see daylight except when they emerge from the miserable underground hovels which poverty makes for their abode.

The Farmers Bank, a new financial institution at London, states in its advertising space in the local papers that neither its officers nor directors can borrow from that bank. It is evident that the bank officials have more confidence in those people they are not so well acquainted with than those with whom they are daily thrown in contact. Thus it is the more you know about man the more you are inclined to admire dogs.

COOPER ENDORSES

Y. M. C. A. WORK

Well-Known Man Becomes More Thoroughly Identified With Kentucky.

Lexington, Ky., March 12.—L. T. Cooper, the philanthropist who electrified Lexington by furnishing, at his own personal expense, the bread that is used in the Orphan's Homes in that city, who established a "Bread Line" for the indigent poor, and who is conducting an agricultural exposition to encourage the farmers, whom he considers the bone and sinew of the land, became more thoroughly identified with Lexington in particular and central Kentucky in general, when he became a member of the Young Men's Christian Association.

Mr. Cooper was waited upon by a delegation of some of Lexington's best-known young men and invited to join the local Y. M. C. A. Mr. Cooper, a native Kentuckian, not only accepted the invitation to become a member, but he endorsed the work of one of Lexington's most deserving and commendable institutions.

The demand for Tanlac, the remarkable medicine that is now being introduced by Mr. Cooper to prove his theories on health, is now the biggest thing of the kind ever seen in this section. The preparation is accomplishing a powerful amount of good among the thousands who suffer from catarrh, stomach, liver and kidney complaints as well as rheumatism.

Hundreds of those who have actually used Tanlac talk enthusiastically about the astonishing results they obtained from the medicine.

Peter Geiser, living at 412 Clifton avenue, Lexington, said:

"While I haven't used an entire bottle of Tanlac so far, yet I consider it the most wonderful medicine I have ever used. I suffered for years with stomach and kidney trouble. I also had headaches, indigestion, and attacks of rheumatism. My troubles have all disappeared, and I can trace my remarkable improvement to no other cause than Tanlac. It is fine."

Tanlac can now be obtained in Stanford from Penny's drug store.

IMPORTANCE OF HEALTHY KIDNEYS

Stanford Readers Should Learn to Keep the Kidneys Well.

The kidneys have a big work to do. All the blood in the body is coursing through the kidneys constantly to be freed of poisonous matter. It is a heavy enough task when the kidneys are well, but a cold, chill, fever, or some thoughtless exposure is likely to irritate, inflame and congest the kidneys and interrupt the purifying work.

Then the aching frequently begins and is often accompanied by a urinary irregularity. If the urine is too frequent passages, sediment or retention. Thousands testify to the wonderful merit of Doan's Kidney Pills, a remedy for the kidneys only, that has been used in kidney troubles 50 years. You will make no mistake in following this Stanford citizen's advice.

"I was troubled some time ago by an acute attack of kidney complaint," says W. H. Mershon, of Lancaster pike, Stanford. "My back ached constantly and I had pains through my loins. I felt languid and tired easily. I took a box of Doan's Kidney Pills and they fixed me up all right, the second box practically curing me."

Price 50c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Mershon had. Foster-Milburn Co., Props., Buffalo, N. Y.

Candidate For Nomination as Auditor of Public Accounts Is Well Known Farmer and Live Stock Man.

H. H. COLYER, RICHMOND, KY.

I AM A CANDIDATE for the responsible office of Auditor of Public Accounts of the State of Kentucky. Recognizing the important consideration given in choosing an official that will measure up to the ability and fitness for this high office, I submit the testimonials of those informed of my private life. To be Auditor of the great Commonwealth of Kentucky is not a new ambition—its honors are supreme and worth fighting for. I am not entering this contest upon the advice of a few local friends. A careful scrutiny by my friends from every section of the state of all the usual political conditions have determined that my representation in this primary is not likely to be a final second. I am a farmer and live stock dealer—I am interested in systemizing of agricultural interests for greater results and less hardships.

My political aspirations have been focused on this office for quite a while. Believing now that the election experience of the Democratic voters of Kentucky in the past has put them "wise" to the dangers and un-democratic system of swapping state offices, inspires me with the belief that the time is ripe and the voters are ready to give to Kentucky's administration what they want in the form of a square deal. I believe in fighting for justice and meriting the honors given. I believe that officials should be required to do as the toiling farmer—earn the emoluments of his office by the sweat of his brow. I believe that when every official of Kentucky has labored hard for an economical administration that the taxpayers will be greatly relieved. I am not for creating more offices, but for dispensing with every one that is superfluous. I began voting temperance, and will continue to do so as long as I have the sovereign right. I am for the election of every Democrat that is worthy enough to win his nomination, and for the defeat of every Republican, whether he won or stole his nomination, as in either case he would be wrong and never right.

If I am elected—which I believe from the public expression I will be—I promise now that the Commonwealth of Kentucky will never have a cause for suspicion of irregular management in my office; and that every employee will be of the highest type of fitness for the duties assigned. I expect to conduct my campaign on purely honorable Democratic principles—I am as much opposed to violating our election laws as I am of every other law enacted by a righteous tribunal. I hope to have the pleasure of meeting with every Democrat in Kentucky between now and the 7th day of next August. When the final results will have been declared I will cherish the memory of my supporters and will fight for Democratic supremacy.

Testimonial From Madison County Democratic Committee.

"In behalf of the Democrats of Madison county, and through many other representative Democrats from other sections of the state, I take pleasure in presenting H. H. Colyer to the Democrats of Kentucky, as a man capable and worthy for the high office of Auditor of Public Accounts, which he is now seeking. He is now and has always been loyal and aggressive for the success of Democratic supremacy. His morals and integrity are above reproach. If nominated, we predict that he will lead our Democratic ticket in November. Respectfully,

"W. A. LANGFORD,
Chairman Democratic County Committee."

The "Kentucky Register" and "Climax-Madisonian" of Richmond, Ky., say, regarding Mr. Colyer:

"It is a pleasure to endorse a man of Mr. Colyer's worth for any office that he may seek. We have known him long and intimately, and can testify to the splendid quality of his Democracy, and to the value of his services to the party. Especially does it give us pleasure to say something of his value to the newspapers of this section. He has been one of the strongest friends the craft has ever had. He has been a consistent friend of the local publishers, has supported them morally and financially, and has always taken an active interest in the uplift and advancement of the journalistic profession."

Newspapers in Kentucky

According to the latest report there are 309 newspapers in Kentucky, including 29 dailies, two tri-weekly, 24 semi-weekly, 213 weekly, 7 semi-monthly, one bi-monthly, 2 quarterly and one three times a year. The places of publication number 159, of which 113 are county seats. There are seven county seats in Kentucky at which no paper is published.

Girls Do the Courting

Philippine natives believe in certain forms of women's rights, especially when it comes to choosing a husband. For instance, the Bontoc Igorrotes leave all the courting to the girls. While the worldly goods of the proposed father-in-law have some bearing upon the ardor of the young lady's wooing, still there are certain requirements which must be lived up to by the young men—namely, he must either have secured the head of an enemy or he must be in the employ of an American. In other words, he must be a brave man—according to Igorrote standards—or he must be in a fair way to attain a good living.

Road Chat (By Jacob Gander)

People are talking on many things these days out of their own will. Let me deliver a short address in case of need on a subject which is a very dirty one especially at this time of the year.

Who of the kind and gentle readers of this paper have ever heard of a road in Lincoln county by the name of Newland's Lane? This word includes all the misery that can be shown by a road and expressed in a name. All those who live on this road know it and had an opportunity to find out. We might ask the disciples (John 9:2) Who did sin, them or their parents? That they are in the mud. They are in it and some times deep.

You might say: "Why don't the people, living on that road work it and put it in better condition?" It has been done very carefully every year. The writer of this was helping and did his part with the others for the last 13 years. Many hundred loads of slate, the only material which was at our disposal, have been put on the road with no result as the one showing, that Newland's Lane cannot be worked and put in good condition by the old-fashioned way of dirt-road working.

Every citizen and taxpayer has a right to a road. Where is our road and where is our part?

I expected four loads of lumber last spring; two loads were delivered. The first team was able to pass the most dangerous spot, the second one stuck fast in the mud and the horses of both teams were unable to move the load. The lumber had to be unloaded, passed over the fence and carried quite a distance to be reloaded on the wagon, the road being impassable for pedestrians. It is needless to say, that I am still waiting for the other two loads.

It is the opinion of the writer and all those living on this road and suffering under the deplorable conditions that relief can come only from the county building a pike about two miles long with the assistance of all concerned.

Back of these two miles are two colored settlements, Boneyville and Davisville, with more than 100 inhabitants, hardworking and taxpaying people. Many of them work in town and have to pass the road every day. It is our race which imported them and it is our duty to help them. Further back are good farms, whose owners depend on this road for going to town, the branches leading to Hustonville pike and Beck's Lane, being impassable after heavy rains. There is also a German congregation on this road with a church and parsonage and a Baptist congregation with a new church which has members in town and it is very often quite impossible for the people to get through the mud and attend services. Rural Route No. 3 also runs through this road which is the worst one and a disgrace to our prosperous county, especially in that part called Newland's Lane.

There are two reasons why the attention of the proper authorities should be called to this road first of all: First—it cannot be worked by the old way on account of the nature of the ground, (clay with an underground which lets no water through.) Second—There is no other road going out into the pike which leads to town in nearly so bad a condition as this awful mud road, called in its worst section Newland's Lane.

GIRLS! STOP WASHING
THE HAIR WITH SOAP

Soap Dries Your Scalp, Causing Dan-
druff, Then Hair Falls Out—Try
This Next Time.

After washing your hair with soap always apply a little Danderine to the scalp to invigorate the hair and prevent dryness. Better still, use soap as sparingly as possible, and instead have a "Danderine Hair Cleanse." Just moisten a cloth with Danderine and draw it carefully through your hair, taking one strand at a time. This will remove dust, dirt and excessive oil. In a few minutes you will be amazed, your hair will not only be clean, but it will be wavy, fluffy and abundant, and possess an incomparable softness and lustre.

Besides cleansing and beautifying the hair, one application of Danderine dissolves every particle of dandruff; stimulates the scalp, stopping itching and falling hair. Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhilarating and life-producing properties cause the hair to grow long, strong and beautiful.

Men! Ladies! You can surely have lots of charming hair. Get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter and try it.

Heard About Town

News comes that Carlisle Myers, of Hustonville, will play this season with the Rockford club, of Rockford, N. C. We'll warrant he will make good. By the way, Hustonville has produced more good ball players than any town of its size in the country.

Harry Jacobs, the monument man, erecting a very fine Frank Crank granite monument in Goshen cemetery this week for Mr. W. D. Gooch for his father and mother. Mr. Jacobs also set three good jobs last week at Antioch cemetery near Phil, for the Garrison family.

Mr. and Mrs. T. A. Rice have moved into their handsome new home on Danville avenue. This home is not only one of the handsones in this section, but the most modern, as well. Will Stone was the builder, and that he did a capital job, none who have seen it will gainsay.

Henry Anderson has sold to F. P. Hays a 1915 model Ford, which they went to Louisville and drove back Thursday. They made the trip in four hours and say that the road the entire way is good.

News comes from Crab Orchard that Col. J. W. Guest is suffering from a deep cold and fears are entertained that he is seriously sick. It was reported here that he had suffered a stroke of paralysis, but a phone message from his bedside denies the truth of the statement.

When Knighthood Was in Flower
As Pat O'Hoolihan was walking down Broadway he was accosted by a distinguished looking stranger who wished to know the quickest way to the City Hall. Pat told him, and then inquired cheerfully, "And who might ye be?"

"I" said the stranger, drawing himself up proudly, "am the Hon. John Kenneth Edgerton, of London, Knight of the Garter, Knight of the Bath, Knight of Malta, Knight of the Golden Fleece, Knight of St. John, Knight of the Royal Legion and of the Iron Cross. And whom have I the honor of addressing?"

Pat was staggered for a moment. Then he in turn raised his head proudly and replied: "Ye have the honor of addressin' Pathrick O'Hoolihan, of Hoboken, tonight, last night, night before last night, night before that, tomorrow night, and every other dom night in the wake."

Heavy Loss

According to the income statement of the Louisville & Nashville Railroad Company for the six months ending December 31, 1914, the road's net income was \$2,715,887, as against \$5,063,963 for the same period of the preceding year, a decrease of \$2,348,076. Gross income for the six months was \$6,941,539, a decrease of \$2,205,489, as compared with the gross income of the same period in the preceding year, which was \$9,147,028.

COLDS

An up-to-date remedy for
colds. That is what Peruna
is. In successful use over
50 years.

Colds are caught in many ways: Ill ventilated rooms; rooms that have direct draughts; crowded rooms; damp houses; stuffy school rooms; offices ill heated.

A dose of Peruna at the right time, at the first symptom of cold, before the bones begin to ache, before the sore throat manifests itself, or the cough, or the discharge from the nose, just a dose or two of Peruna before these symptoms begin is generally sufficient. But after the cold is once established with the above symptoms prominent, a bottle of Peruna, or maybe two, will be necessary.

"For several years I have been troubled with colds at each change of season. I took Peruna and have not been troubled since. I have had this entire season." Mr. Harry Fisher, 1928 Mosher St., Baltimore, Md.

"I give the children Peruna if they have a cold, and it always relieves them." Mrs. J. D. Hayes, 1937 Druid Hill Ave., Baltimore, Md.

"When I feel a cold coming on I take a little Peruna, and it does me good." Mr. Charles S. Many, 12 Water St., Ossining, N. Y.

"No family should ever be without Peruna, for it is an infallible cure for colds." Mrs. M. F. Jones, Burning Springs, Ky.

A Modern Solomon

A Georgia magistrate was perplexed by the conflicting claims of two negro women for a baby, each contending that she was the mother of it. The judge remembered Solomon, and, drawing a bowie knife from his pocket, declared that he would give half to each. The women were shocked, but had no doubt of the authority and purpose of the judge to make the proposed compromise. "Don't do that, boss," they both screamed in unison; "you keep it yourself."

MISTAKEN DIAGNOSIS — DOCTORS GUESS WRONG AGAIN.

About five years ago I wrote to you that I had been a terrible sufferer from kidney and bladder troubles, and that my physician informed me that my left kidney was in such condition that there was no hope for my recovery. I was advised to try your Swamp-Root as a last resort, and after taking four fifty-cent bottles, I passed a gravel stone which weighed ten grains. I afterwards forwarded you this gravel stone. Have had no return of any trouble since that time and cannot say too much in favor of your wonderful preparation, Swamp-Root, which cures after physicians fail.

Very truly yours,

F. H. HORNE,
Route 3, Box 30, Roseboro, N. C.

Personally appeared before me, this 31st day of July, 1909, F. H. Horne, who subscribed the above statement and made oath that the same is true in substance and fact.

Tackle Catarrh Now
Be Free All Winter

Avoid Colds, Stall Pneumonia, Keep Your Nose Clear and Your Throat Free.

Don't Wait Till You're All Bugged Up. Use S. S. S. Now.

If you will go into any first class store and get a bottle of S. S. S. you are on the way to getting rid of Catarrh. But don't let anyone work off that old trick of something "Just as good."

S. S. S. is taken into the blood just as naturally as the most nourishing food. It spreads its influence over every organ in the body, comes through all the veins and arteries, enables all mucous surfaces to exchange inflammatory acids and other irritating substances for arterial elements that effectively cleanse the system and thus put an end to all catarrhal pollution.

S. S. S. cleans out the stomach of mucous accumulations, enables only pure, blood-making materials to enter the intestines, combines with these food elements to enter the circulation, and in less than an hour is at work throughout the body in the process of purification.

The medicinal components of S. S. S. are relatively just as essential to well-balanced health as the nutritive properties of the grains, meats, sugars, and fats of foods. Any local irritating influence in the blood is rejected by the tissue cells and eliminated by reason of the stimulating influence of S. S. S.

You will soon realize its wonderful influence by the absence of headache, a decided clearing of the air passages, a steadily improved nasal condition, and a sense of bodily relief that proves how completely catarrh often infests the entire system.

You will find S. S. S. on sale at all drug stores. It is a remarkable remedy for any and all blood afflictions, such as eczema, rash, lupus, tetter, psoriasis, boils, and all other diseased conditions of the blood. For special advice on any blood disease write to The Swift Specific Co., 202 Swift Bldg., Atlanta, Ga.

Do not trifle with substitutes, imitations or any of the horde of "Just as good" counterfeits of S. S. S.

Unlike Homer
George Ade once introduced a speaker at a banquet by remarking: "Two towns in Indiana lay claim to the honor of Mr. Blank's birthplace. (A pause, during which Mr. Blank strove to look modestly deprecating.) "Warsaw states that he was born in Kokomo, and Kokomo insists that the honor belongs to Warsaw." The Youth's Companion.

Deafness Cannot Be Cured,

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; also cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & CO., Toledo, O.

Sold by Druggists, etc.

D. D. D. In Hospitals; Standard Skin Cure

How many hospital patients, suffering the fearful itch, the raw scorching pain of skin disease, have been soothed to sleep by a soothing fluid washed in by the nurse's hands? That fluid is the famous D. D. D. prescription for eczema.

THE SUPERVISING NURSE of one of our prominent Catholic institutions (name of nurse and institute on application), writes regarding a patient: "The disease had eaten her eyebrows away. Her nose and lips had become disfigured. Since the use of D. D. D. her eyebrows are growing, her nose and face have assumed their natural expression."

How many eczema sufferers are paying their doctors for regular treatment and are being treated with this same soothing, healing fluid?

DR. GEO. T. RICHARDSON frankly

writes "D. D. D. is superior to anything I have ever found. Soft and soothing, yet a powerful agent."

To do the work, D. D. D. Prescription must be applied according to directions given in the pamphlet around every bottle. Follow these directions—and see!

And it certainly takes away the itch at once—the moment the fluid is applied. The skin is soothed—calmed—so thoroughly refreshed—delightfully cooled.

All druggists of standing have the famous specific as well as the efficient D. D. D. Skin Soap.

But we are so confident of the merits of this prescription that we will refund the purchase price of the first full size bottle if it fails to reach your case. You alone are to judge.

Kentucky Farm Homes

There are now 494,788 homes in Kentucky, according to a report issued by the Census Bureau, while ten years ago the number was 437,054 compared with 354,463 homes in 1890. Fifty per cent of the Kentucky homes are farm homes, compared with 54 per cent in 1900 and 53 per cent in 1890. The number of homes in this State free of incumbrance at the present time is 198,329, while 47,659 are encumbered and 235,433 are rented. In the entire nation there are 20,255,555 homes. Some Cow

Tests completed at Columbus, O., by the dairy department of the Ohio State University establishment a new world's record in milk production, according to figures made public at the university. The new queen of the dairy world is Murne Cowan, a five-year-old Guernsey cow, who during the last year, produced twelve tons of milk. According to the university figures the cow's milk averaged five per cent in butter fat. During the year she produced 1,400 pounds of butter fat, which churned into 1,096 pounds of butter. Murne Cowan's home is on a farm near Barborton, O.

Heavy Loss in Baseball

The five important baseball leagues—the National, American, American Association, International and Federal League—stood a loss last season of \$1,125,000, according to figures published in New York. They are not complete in detail as to the minor leagues, but the entire American League made a net profit of but \$58,000. The National League, on account of the spurt of the Braves, did a little better, and managed to make \$115,000. It is interesting to note in this connection that the Giants made \$120,000, which is \$5,000 more than the league made collectively. The others must have lost heavily for the losses to have pulled the profits of the league below the net gain of the Giants. The principal winners of baseball are: Giants \$120,000; Red Sox, \$75,000; White Sox, \$76,000; Braves, \$70,000; Chicago, \$20,000; Yanks, \$10,000. All the others appear to have either lost money or broken even. The heaviest losers and the only ones on whom the figures have been made public are Cleveland, \$8,000; Athletics, \$40,000; Pittsburgh \$30,000.

LAXATIVE FOR OLD PEOPLE—"CASCARETS"

Salts, Calomel and Pills Act on Liver and Bowels Like Pepper Acts In Nostrils—Danger!

Get a 10-cent box now.

Most old people must give to the bowels some regular help, else they suffer from constipation. The condition is perfectly natural. It is just as natural as it is for old people to walk slowly. For age is never so active as youth. The muscles are less elastic. And the bowels are muscles.

So all old people need Cascarets. One might as well refuse to aid weak eyes with glasses as to neglect this gentle aid to weak bowels. The bowels must be kept active. This is important at all ages, but never so much at fifty.

Age is not a time for harsh physics. Youth may occasionally whip the bowels into activity. But a lash can't be used every day. What the bowels of the old need is a gentle and natural tonic. One that can be constantly used without harm.

Only such tonic is Cascarets, and they cost only 10 cents per box at any drug store. They work while you sleep.

Oil Treatment for Stomach Troubles

A simple prescription made up of a combination of pure vegetable oils is producing wonderful results for sufferers from stomach, liver and intestinal troubles. The remedy, which is said to have originated in France, where it has been used for years by the peasantry, was introduced into this country by George H. Mayr, a leading Chicago druggist, who cured himself of severe stomach, liver and intestinal troubles by its use. Those who have used it say the first dose is sufficient to convince any one of its remarkable merit, and that within twenty-four hours the sufferer feels like a new person. This medicine, which has become known as Mayr's Wonderful Remedy, is sold by leading druggists everywhere with the positive understanding that your money will be refunded without question or quibble if ONE bottle fails to give you absolute satisfaction.

Try "GETS-IT," It's Magic for Corns!

New, Simple, Common-Sense Way.

You will never know how really easy it is to get rid of a corn, until you have tried "GETS-IT." Nothing like it has ever been produced. It takes less time to apply it than it does to read this. It

will amaze you, especially if you have tried everything else for corns. Two drops applied in a few seconds—that's all. The corn shrivels, then comes right off, painlessly, without fussing or trouble. If you have ever made a fat bundle out of your toe with bandages; used thick, compressing cotton-rings; corn-pulling salves; corn-tensing plasters—well, you'll appreciate the difference when you use "GETS-IT." Your corn-agony will vanish. Cutting and gouging with knives, razors, files and scissors, and the danger of blood-poison are done away with. Try "GETS-IT" tonight for any corn, callus, wart or bunions. Never fails.

"GETS-IT" is sold by druggists everywhere, 50c a bottle, or sent direct by E. Lawrence & Co., Chicago.
